9 FEB 1970

MEMORANDUM FOR: Deputy Director for Science & Technology

Carl:

As you know, all of the components of the Agency have been asked to nominate eligible and deserving senior officers for the Federal Executive Institute, an eight-week course conducted in Charlottesville, Virginia, several times a year.

I believe that [] an ORD careerist currently assigned to NPIC, would be an excellent candidate for this program. Nick is doing an exceptionally good job of managing and directing the NPIC R&D program and we feel that he meets all of the criteria for the Federal Executive Institute.

We would be pleased to support your nomination of Nick in any way that you would deem useful. The 26 July - 18 September 1970 running of the course would be particularly convenient for Nick and for NPIC.

Executive Director
National Photographic Interpretation Center
